girls like robots. girl like robots nerd fest game

I. dunno about this one. I'm really not sure on the style, tone or gameplay of it. Maybe I just read too deeply into things.. Thanks a ton for reminding me that girls hate nerds. We do all love robots, though.. A very cute and humorous puzzle game, perfect for if you feel like relaxing for a bit but still wanna play something.. Gets old fast. Not to my tastes I guess.. Fun little puzzle game. Short but sweet.. Lovely little game! The puzzles are fun, each level provides fantastic new gameplay and the music is just so cheerful!
